

It is my understanding that very soon the FCC will be making decisions that will make it more difficult for U.S. citizens to have access to varied sources of current news events and points of view. These decisions --- to allow or to prohibit a single media corporation to be in a position of controlling the delivery of news in a given area --- will have a long lasting negative effect on this country. A decision to favor corporation is, as we all know, a serious detriment to real democracy. Citizens need to be informed to make proper decisions and not be unduly influenced by being limited to one corporation's editing of the news. If the role of the FCC is to protect the public interest in the use of the public airwaves, the decisions that favor the corporations in not protecting the public's interest. Please keep this in mind as you determine how news is to be delivered.
